Valley V-8's
NEWS and NOTES
January 1987

As we pass over Kansas City, on our way to Newark, I'm reflecting back on the installation - holiday dinner of a few hours ago and what a great club we have. - Great primarily because of the members that love not only their V-8s, but also their fellow man. Members that are always willing to share whether it be advice, talent, participation, time or tools.

All of the new officers (including the new old officers) are looking forward to an exiting and progressive year. We are eager and committed, but will need your help to be successful. If you have not been an active member, please come out to our next meeting and/or club function. I urge every member to support our officers with their plans and projects if you are called on to help, or how about volunteering even if you are not asked. Your efforts will be rewarded by the knowledge that you are truly part of the group, working with and enjoying friends.

To Dave Sanborn, we say thanks for a year of dedicated service. It was a year of involvement and much activity. The club is healthier today, thanks to Dave's effort. One of my goals is to keep up the momentum.

Thanks also to Virginia Wolf, Nino Rosso and Julie Blackwell for coming up with a permanent place, with good parking, for our meetings. Beginning with our January 4th meeting, Mercury Savings, on Laurel Canyon Boulevard, just north of Magnolia in Studio City, will be the place. We initially thought we had the use of Glendale Federal's facilities either in Canoga Park or Sherman Oaks, but both of those places fell through.

At our meeting on January 4th, we will be discussing the calendar for the coming year. Also, Don Durkee, in his own inimitable style, will be giving us a demonstration of the restoration and installation of early Ford running boards. -By the way, did you see the Bob Drake running board ads that were enclosed with the calendars given out at our installation dinner? Our thanks go out to Bob for

donating the calendars. While we're on the subject, let's continue to patronize all of our sponsors and let them know that we appreciate their support.

By the time you read this, the holidays will be just about behind us. I hope they were pleasant for each and everyone of you and that the New Year is prosperous. See you at our meeting on January 4th, as we gear up for a new year. - Don't forget The National Board meeting and installation on January 15-17 in San Francisco.

John Kemmerer
